ICAAP MASTERCLASS:

PREPARING, REVIEWING

& DEVELOPMENT

REGISTER

LIVE ONLINE / CLASSROOM PROGRAM

Course Overview

With the introduction of Basel II, the subject of economic capital has received much attention from regulators, bankers, credit and risk professionals, and academics. BIZENIUS ICAAP Masterclass will provide delegates with an understanding of the most important concepts of economic capital requirements but will also highlight how and why this may differ from regulatory capital requirements.

In response to heightened regulatory scrutiny from the Basel Committee, this masterclass explores scenario analysis and ICAAP for effective op risk management.

At the BIZENIUS Masterclass we will discuss how to prepare, populate and complete an ICAAP under the regulations and pitched at a level appropriate for your business. We would be looking at ICAAP/ILAAP from regulators point of view, regulators consider the ICAAP to be a crucial risk management tool.

Case studies simulate step-by-step how a bank produces an ICAAP framework, allowing participants to gain in-depth knowledge of the approaches to risk and capital management and their presentation in the ICAAP. The differences between smaller and larger banks' frameworks will also be highlighted.

Join your professional community.

BECOME AN EXPERT

Benefits of Attending

- ICAAP requirements and regulatory perspectives
- Technical challenges of ICAAP reporting
- Sound practices identified by the
- ICAAP in managing Capital and Liquidity adequacy
- ICAAP/ILAAP Report Structure
