## BIZENIUS In House Learning Approach

Tailored training programmes developed to enhance the finance and business skills of staff across your organisation and provide innovative value-added training for your team.

In-house training allows us to give you a more customised fit-for-purpose learning solution that focuses on the particular requirements of your organisation and teams.

Whether you require a single course or a multi-disciplined course programme, we can provide you with a quality, cost-effective solution to fulfil your requirements. We have an experienced team of presenters who will listen to your needs, develop courses to your specification and deliver high-quality relevant training at a time and location to suit you.

### Select from our wide range of subjects to receive your own bespoke training course:

- Programs that will equip your staff with the competencies and skills they need to impact your business objectives and develop personally.
- We take the time to explore your needs to ensure programs meet your requirements.
- Training is delivered in a practical and engaging format by industry-experienced trainers who have actually done the job.
- Learning is put into context with the use of real-life examples so it can be applied to help improve business performance.
- An enhanced range of global training solutions and resources through our partnership with BPP Professional Development.
- Experience in delivering training across a range of sectors including commercial, public sector, and not-for-profit.
- Ensure exceptional quality assurance and clientele satisfaction
- Provide organizational solutions that broadens potential and integrate established HR standards & principles

# TRAINING PLAN

## Safety - Covid 19 ( For Classroom Program)

Our number one priority is the safety of our delegates and colleagues, especially in the light of recent health concerns across the world. In addition to this, BIZENIUS adds a further layer of health and safety best practice standards and guidelines, that will be followed at our events wherever applicable and possible. These measures will focus around four key areas: cleaning and hygiene, communications, protect and detect and physical distancing. They're designed to provide you with confidence that at any of our event around the world, we're striving to provide the highest standards of safety, hygiene, cleanliness and quality.

### CLASSROOM PROGRAM DELIVERY POST COVID 19:

- BIZENIUS would be providing a face mask for all the delegates and staff
- Sanitized Venue – We would get the meeting room sanitized on all the training days
- Thermal check of the delegates and staff before the start of the program on all the days
- Contact less provision of delivery material
- Social distancing - Limited number of delegates for classroom program

## BIZENIUS Training Approach and Methodology
